

Cyber Fire Challenge

January 26–January 28, 2018

REGISTRATION OPEN

<https://cyberfirechallenge.eventbrite.com>

Registration Deadline: Jan 25, 2018, 5:00 pm, EST

Show off and learn new computer security skills through the Cyber Fire Challenge! This event is a capture-the-flag style game where you are given security questions to analyze, research, and solve. These puzzles are aimed at beginner through advanced levels, with an emphasis on learning new skills. The event is free to play and available online.

As participants you will use your own computers to connect to a Cyber Fire Challenge server. Participants can be individuals or self-organize into teams. You will be provided with free-form set of challenges spanning multiple cyber security categories to solve puzzles, sharing tips and gain new cyber security skills. In addition to puzzles participants can unlock hidden puzzle categories to further develop your skills in new areas through learn-as-you-play exercises.

Cyber Fire is a United States Department of Energy training program for Cyber Defenders

Exercise Categories:

- Forensic analysis
- Javascript deobfuscation
- Network archaeology
- Malware reverse engineering
- Sequence analysis
- Binary file reverse engineering

...and more
